Salads
Quiches
Pies
Gourmet rolls
Muffins optionally served with butter, jams & cheese
Cake of the day
Sweet tartlets
Biscuits & cookies

Streams

Please order and pay at the counter

Did you know ...

- Our coffee is sourced by an artisan coffee roastery, in relationship and generous fairness with farmers from Africa and other coffee producing regions. Each 70kg batch is individually hand roasted, with the roasting process fine tuned to match its particular qualities.
- The coffee beans we serve you will never be older than 14 days from roasting - guaranteed! Freshness and the correct grind is critical. Our water is properly filtered and used at carefully controlled temperatures, pressures and timings.
- Our coffee baristas are professionally trained and monitored by South Africa's top barista artisans. Our baristas would love to share more with you - don't hesitate to ask. If we don't know, we'll find out!
- We steam our milk to approximately 70°C. Any hotter, and the milk will start to burn, losing its natural sweetness and velvety texture. Please understand that it is for your maximum enjoyment if your milk coffee is not as hot as you are accustomed to.

We haven't forgotten the teas ...

- At Streams, we are as proud of our tea excellence as we are of our coffees. We serve the finest full leaf teas in exquisite silken bags steeped in properly filtered water. These require longer extraction times than cheaper tea bags to bring out the magnificent flavours and aromas. Please be patient (at least 5 minutes) - you'll be delighted!
- We aim to make your tea an experience - give it a try.
